

BORANG PENGESAHAN STATUS TESIS

JUDUL : WEIGHT MANAGEMENT GO MOBILE (WMGM)

SESI PENGAJIAN : 2011/2012

Saya SOH CHOOI YOKE mengaku membenarkan tesis Projek Sarjana Muda ini disimpan di Perpustakaan Fakulti Teknologi Maklumat dan Komunikasi dengan syarat-syarat kegunaan seperti berikut:

1. Tesis dan projek adalah hakmilik Universiti Teknikal Malaysia Melaka.
2. Perpustakaan Fakulti Teknologi Maklumat dan Komunikasi dibenarkan membuat salinan untuk tujuan pengajian sahaja.
3. Perpustakaan Fakulti Teknologi Maklumat dan Komunikasi dibenarkan membuat salinan tesis ini sebagai bahan pertukaran antara institusi pengajian tinggi.
4. ** Sila tandakan (/)

_____ SULIT

(Mengandungi maklumat yang berdarjah keselamatan atau kepentingan Malaysia seperti yang termaktub di dalam AKTA RAHSIA RASMI 1972)

_____ TERHAD

(Mengandungi maklumat TERHAD yang telah ditentukan oleh organisasi/badan di mana penyelidikan dijalankan)

_____/_____/_____ TIDAK TERHAD

(TANDATANGAN PENULIS)

(TANDATANGAN PENYELIA)

Alamat tetap: 110, Prsn Pegoh Amn 4,
Taman Desa Aman, 31650, Ipoh,
Perak.

DR. SABRINA BINTI AHMAD
Nama Penyelia

Tarikh: 18/8/12

Tarikh: 18/8/12

CATATAN: * Tesis dimaksudkan sebagai Laporan Akhir Projek Sarjana Muda (PSM)

** Jika tesis ini SULIT atau TERHAD, sila lampirkan surat daripada pihak berkuasa.

WEIGHT MANAGEMENT GO MOBILE (WMGM)

SOH CHOOI YOKE

This report is submitted in partial fulfillment of the requirement for the
Bachelor of Computer Science (Software Development)

FACULTY OF INFORMATION AND COMMUNICATION TECHNOLOGY
UNIVERSITI TEKNIKAL MALAYSIA MELAKA

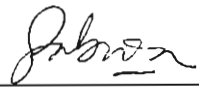

2012

DECLARATION

I hereby declare that this project report entitled
WEIGHT MANAGEMENT GO MOBILE (WMGM)

is written by me is my own effort and that no part has been plagiarized
without citations.

STUDENT :  Date : 17/8/12
(SOH CHOOI YOKE)

SUPERVISOR :  Date : 17/8/12
(DR. SABRINA BINTI AHMAD)

DEDICATION

I dedicate this project to those who have never failed to give me helps and moral supports, especially to my parent for giving me motivation and encouragement to reach my goal; to Dr. Sabrina for giving all the need during the time I developed my application and for teaching me that even the largest task can be accomplished if it is done one step at a time.

ACKNOWLEDGEMENTS

This project would not have been possible without the support of many people. Thanks a lot to my supervisor, Dr. Sabrina, who was abundantly helpful and offered invaluable assistance, support and guidance. Specially thanks also to my beloved family for their understanding and endless love throughout my project. Besides, I would like to thank my numerous friends who endured this long process with me, always offering support and love. Finally, an honourable mention goes to those who have been involved for their helps and supports on me in completing this project. Without helps of the particular that mentioned above, I would face many difficulties while doing this project.

ABSTRACT

Weight management go mobile is an android application that using a convenient, quick and easy way to keep weight at a healthy level. The term “weight management” is different from “dieting” because it involves not just losing weight, but more than regulating food intake. Managing weight also takes regular exercise and maintaining an overall healthy lifestyle aside from following a strict diet. Some people may go as far as going through surgery and/or medications to solve their weight problems. However, proper nutrition and taking time to lose weight are the healthiest methods to manage weight. Therefore, Weight Management Go Mobile has been developed and providing a simple tool which allows user to keep up to date and on track with their food and exercise diaries for managing their weight.

ABSTRAK

Weight Management Go Mobile adalah aplikasi android yang menggunakan cara yang mudah dan cepat untuk menjaga berat badan pada tahap yang sihat. Istilah “pengurusan berat” adalah berbeza daripada “berdiet” kerana ia melibatkan bukan hanya kehilangan berat badan, tetapi lebih daripada mengawal selia pengambilan makanan. Pengurusan berat juga mengambil senaman yang kerap dan mengekalkan gaya hidup sihat secara keseluruhan selain daripada mengikut diet yang ketat. Sesetengah orang mungkin akan melalui pembedahan dan/ atau ubat-ubatan untuk menyelesaikan masalah berat badan mereka. Walau bagaimanapun, pemakanan yang betul dan menurunkan berat badan dalam tempoh masa yang betul adalah cara tersihat untuk menguruskan berat badan. Oleh itu, Weight Management Go Mobile telah dibangunkan dan menyediakan satu cara mudah yang membolehkan pengguna mengikut perkembangan dengan diari makanan dan senaman untuk menguruskan berat badan mereka.

CHAPTER I**INTRODUCTION**

1.1 Project Background	1
1.2 Problem Statement	3
1.3 Objective	4
1.4 Scope	5
1.5 Project Significance	5
1.6 Expected Output	6
1.7 Conclusion	6

CHAPTER II LITERATURE REVIEW AND METHODOLOGY

2.1 Introduction	7
2.2 Facts and Finding	8
2.2.1 Domain	8
2.2.2 Existing System	9
2.3 Project Methodology	14
2.3.1 Object Oriented Analysis and Design (OOAD) Phases	15
2.4 Project Requirements	18
2.4.1 Software Requirements	18
2.4.1 Hardware Requirements	19
2.5 Project Scheduling	20
2.6 Conclusion	21

CHAPTER III**ANALYSIS**

3.1 Introduction	22
3.2 Problem Analysis	23
3.2.1 Analysis of Current Application	23
3.2.1 Analysis of Weight Management Go Mobile	23
3.3 Requirement Analysis	24
3.3.1 Data Requirement Analysis	24
3.3.2 Functional Requirement	25
3.3.3 Non-functional Requirement	34
3.3.4 Software Requirement	35
3.3.5 Hardware Requirement	36
3.3.6 Other Requirement	36
3.4 Conclusion	37

CHAPTER IV**DESIGN**

4.1 Introduction	38
4.2 High Level Design	38
4.2.1 System Architecture	39
4.2.2 User Interface Design	40
4.2.3 Database Design	79
4.3 Conclusion	83

CHAPTER V**IMPLEMENTATION**

5.1 Introduction	84
5.2 Software Development Environment Setup	85
5.3 Software Configuration Management	86
5.3.1 Configuration Environment Setup	86
5.3.1.1 Installing the J2SE Development Kit (JDK)	86
5.3.1.2 Downloading and Installing SQLite on Windows	87
5.3.1.3 Downloading and Installing SDK on Windows	88
5.3.1.4 Downloading and Installing Eclipse	89
5.3.1.5 Creating .APK Files for Android Phone	90
5.3.2 Version Control Procedure	94
5.4 Implementation Status	95
5.5 Conclusion	96

CHAPTER VI**TESTING**

6.1	Introduction	97
6.2	Test Plan	97
6.2.1	Test Organization	98
6.2.2	Test Environment	99
6.2.3	Test Schedule	100
6.3	Test Strategy	101
6.3.1	Classes of Tests	102
6.3.1.1	Output Correctness Test	102
6.3.1.2	Documentation Test	102
6.3.1.3	Reliability Test	102
6.4	Test Design	103
6.4.1	Test Description	103
6.4.1.1	Calculation Tools Test Description	103
6.4.1.2	Food Log Test Description	105
6.4.1.3	Food Items Management Test Description	106
6.4.1.4	Food Items Test Description	107
6.4.1.5	Food Items Adding Test Description	108
6.4.1.6	Activity Log Test Description	108
6.4.1.7	Activity Items Management Test Description	109
6.4.1.8	Activity Lists Test Description	110
6.4.1.9	Activity Items Adding Test Description	111
6.4.1.10	Analysis Test Description	111
6.4.1.11	User Profile Test Description	113
6.4.1.12	Latest Update Test Description	113

6.4.2 Test Data	114
6.5 Test Result and Analysis	115
6.6 Conclusion	117

CHAPTER VII	CONCLUSION	
	7.1 Observation on Weakness and Strengths	118
	7.2 Proposition for Improvement	119
	7.3 Contribution	119
	7.4 Conclusion	120

CHAPTER I

INTRODUCTION

1.1 Project Background

Nowadays, everyone owns a mobile phone with them. The mobile phone becomes the most important device in our daily life. The mobile phone will help in all the necessary times. The greatest advantage with the mobile phone is we can carry the mobile phone to anywhere. Other than making calls to other we have a lot of functions with the mobile phone. The mobile phone is like a small computer. The entire basic mobile itself will have the calendar, reminder and the alarm options where we can schedule our works. So we will not miss out our activities. Mobile applications, referred to software systems operating on mobile devices, are evolving rapidly, making ubiquitous information access at anytime and anywhere a true reality.

I am going to develop the application named Weight Management Go Mobile. Reaching and maintaining a healthy weight is important for overall health and can help us prevent and control many diseases and conditions. When you have diabetes, you can take many steps to control the disease and stay as healthy as possible. One of the most important is managing your weight. We cannot deny that increasing weight do lead into serious consequences. For instance: people who are overweight or obese have a higher risk for a lot of diseases and conditions besides diabetes, including heart disease, high blood pressure, type 2 diabetes, gallstones, breathing problems, and certain cancers. That is why maintaining a healthy weight is so important. It helps us lower our risk for developing these problems, helps us feel good about ourselves, and gives us more energy to enjoy life.
