Ladies & Gentlemen

INTRODUCTION

- i. Special thanks to Mr. Samuel Wong and Ms. Mandy Mok for the time and willingness to share information regarding QS University Ranking.

- ii. Imperative for higher education institutions like UTeM to be listed in the QS University Ranking specifically in Asia region.
- iii. This will not only help prospective students and communities to make informed comparisons of leading universities but also assess university performances in respective areas.

BACKGROUND OF UTeM

- i. Established in 2000, as the first technical public university in Malaysia.
- ii. Offers Diploma, Bachelor, Master, Doctor of Philosophy and Doctor of Engineering, with a total of 77 programmes covering in-

depth specialization in Engineering, Engineering Technology, ICT and Technology Management

- iii. UTeM operates from 3 campuses with student enrollment approaching 12,000 students, mostly undergraduates.
- iv. Teaching and learning is focused on hands-on/practical oriented approach – which supports National TVET agenda.
- v. UTeM has produced 20,526 graduates since 2005, GE up to 90% mostly serving in private sectors/MNCs.
- vi. Strong connection with local and international industries namely Western Digital, Infineon Technologies, Microsoft, Dassault System, Man & Tel, Agilent and many more.
- vii. Awarded with the Best Academia-Industry Collaboration in conjunction with Malaysia's Leading Graduate Employer Awards by Ministry of Higher Education Malaysia

- viii. International strategic collaboration with more than 50 higher learning institutions all over the world.
- ix. Successfully conducted student mobility programmes with strategic partners in Korea, Japan, Turkey, Saudi Arabia, Jordan, Indonesia and many more.

EXPECTANCY OF WORKSHOP

- i. To create awareness, exposure and a clear understanding on the requirements of the QS Ranking and its implications to the university

- ii. Identify and analyze the strengths and weaknesses data and information management system of the university
- iii. Review and analyze source and data to be more systematic and structured in the aspect of accuracy, validity and completeness
- iv. Ability to plan and monitor action plans so as to more detailed and strategic.

CLOSING

- i. Use this medium to gain more information and clarify ambiguities regarding QS Ranking

- ii. The outcome of which will be highly impactful to the University, both at national or international levels.
