

The background is a large projection screen. At the top left, there is a logo for 'UNIVERSITI TEKNIKAL MALAYSIA MELAKA' featuring a stylized 'U' and 'M' with horizontal lines. To the right of this are the logos for the Malaysian government and 'UTeM'. The main text on the screen reads 'BENGKEL PEMBANGUNAN REPOSITORI DIGITAL UTeM'. Below this, there is a line of Malayalam text: 'ഓനിയൂമി റിപ്പോസിറ്റി നിർമ്മാണ ക്ലാസ്സിൽ' and 'MOHD ISA BIN MOHD DOP, KEPALA PESAWAI MAJLIS'. At the bottom, it says 'UNIVERSITI TEKNIKAL MALAYSIA MELAKA' and 'DEWAN UTeM 1, KAMPUS TEKNOLOGI'. There is also a small logo in the bottom right corner that says 'KEMAJUAN MELAKA'.

## What can go into a repository?

Research outputs

Journals and articles

Research data

E-learning materials

Administrative data/records

- a policy decision made by each institution or administrator. Some repositories only take in particular items (such as theses or journal papers), whilst others seek to only store credible and peer-reviewed work and have a high priority on research outputs from research authors and publishers. However, some more complex objects (websites, advanced 3D topographical representations and other data sets) do present a technical challenge.
