WARM REGARDS FROM RECTOR :

Assalamualaikum and sincere greetings

Bismillahirrahmanirrahim

I am grateful and honoured to be invited to write a few words to this first publication of KUTKM's Directory of Expertise. I must also congratulate University Industry Centre, UNIC for making the effort to make this publication a reality. It is indeed very relevant that KUTKM should publicise the available expertise as a marketing strategy to promote our academics, their specializations and their research activities. Each of these experts has qualification, experience and contributions that may be beneficial to the relevant industries and potential partners in our effort to enhance our nation economic strength and competitiveness.

UNIVERSITI TEKNIKAL MALAYSIA MELAKA

This document can also be a vehicle, which introduces and promotes KUTKM at the national and international level. The first hand information available in this directory would encourage the industry to work together with the university in the relevant areas. KUTKM always put serious emphasis on excellence in collaborative and applied research with smart partners from the industry.

Being a new university, we are proud of our encouraging achievements thus far and we are excited by the opportunities that exist in enhancing collaboration with industry, government and professions. Please feel free to contact us in KUTKM for a rewarding and exciting collaboration.

YBhg. Datuk Professor Ismail bin Hassan

Rector

Kolej Universiti Teknikal Kebangsaan Malaysia

WARM REGARDS FROM DEPUTY RECTOR :

Assalamualaikum and sincere greetings

I am proud to introduce Kolej Universiti Teknikal Kebangsaan Malaysia (KUTKM) as a comprehensive university providing unique opportunities for academic excellence, individual growth and first rate consultancy and entrepreneurial services.

In order to strengthen research and consultancy effort and to reposition KUTKM in the national and international arena, KUTKM is equipped with state of the art engineering facilities which are manned by experts from various academic and professional backgrounds. This directory aims to highlight the services offered by these professionals and experts. It is our hope that this KUTKM Directory of Expertise will lead to opportunities for our professionals and experts to work with external client, seeking quality in research and consultancy services.

I must congratulate UNIC, as secretariat for the production of the first edition of the KUTKM Directory of Expertise. I hope it will provide useful information to everyone. I look forward to a successful and beneficial partnership between KUTKM and potential partners.

Prof. Dr Abu bin Abdullah

Deputy Rector of Academic & Internationalisation

WARM REGARDS FROM DEPUTY RECTOR :

Assalamualaikum and sincere greetings

My sincere congratulations to University Industry Centre (UNIC) for having successfully compiled and published this directory of expertise of Kolej Universiti Teknikal Kebangsaan Malaysia (KUTKM) experts and consultants. It is my hope that this publication shall provide useful information of available expertise that can assist and collaborate with potential partners from industry. It will provide an access in fostering closer cooperation and smart partnership between KUTKM and the industry which in turn shall contribute towards our nation's competitiveness.

UNIVERSITI TEKNIKAL MALAYSIA MELAKA

The university is equipped with state-of-the-art facilities and manned by experts from various academic and professional backgrounds. This directory aims to highlight the services offered by these professionals and experts. It is our hope that the directory will lead to opportunity for our professionals and experts to work with external clients, seeking quality in research and consultancy services.

Please do not hesitate to contact any of the expert in this directory and my office , through UNIC, shall ensure the smooth running of the collaboration.

Datuk Professor Madya Dr Abu Bakar B. Mohamad Diah
Deputy Rector (Research & Commercialisation / Innovation)

**GREETING FROM DEANS -
UNIVERSITY INDUSTRY CENTRE**

Assalamualaikum and sincere greetings

We invite potential partners to work with KUTKM and the university offers a wide range of services which include but not limited to the following:

Staff or personal development

Seminars and workshops

Experimental testing and measurement

Consultancy services

Long and short term research and innovation collaboration

The publishing of this directory reflect our serious effort in working with our partners, in research and consultancy services and the transfer of technology from the university to our partners.

University Industry Center, UNIC, was formed in June 2002 to foster effort in smart partnership between KUTKM and the industry by enhancing and widening of strategic and smart partnership networking with industry thereby facilitating transfer of knowledge and the sharing of expertise and experience of both parties. In our continuous effort to promote greater understanding of needs and issues between KUTKM and industry, Department of Industry Relations and department of Consultancy has been established UNIC, KUTKM. The departments act as an interface between academia and industry in providing smart partnerships projects and activities.

KUTKM is now embarking on a vigorous and highly targeted plan to expand and strengthen its research, development and innovation program aimed at meeting the clearly defined objectives as follows:

To lead research, innovation and consultancy activities on solving industry based problems

To establish smart partnerships between university and industry in research, innovation and consultancy.

Our program of research, development and consultancy activities emphasizes close collaboration with industry and the professions and to focus on research output with clear benefits to the nation. It is hoped that the seriousness injected by KUTKM in building relationships with business, industry, the professions and the community could contribute to the development of innovative professional practice and, more generally, the development of useful knowledge. Our strategy over the last few years has been to focus on areas of strength and to bring as many researchers as we could up to the best possible standard. This has paid dividends, particularly in areas such as mechanical and manufacturing engineering, electrical and electronic engineering as well as information and communication technology.

We hope that you have benefited in going through this directory of expertise at KUTKM and please feel free to contact us at UNIC, and we warmly welcome enquiries from potential partners in research, consultancy and innovative activities.

Prof. Dr. Mohamad Kadim Suaidi

Dean

University Industry Center

EXCELLENCE THROUGH COMPETENCY

National Technical University College of Malaysia

Kolej Universiti Teknikal Kebangsaan Malaysia (KUTKM)

National Technical University College of Malaysia or Kolej Universiti Teknikal Kebangsaan Malaysia (KUTKM) was established on the 1st of December 2000, as the first public technical university in Malaysia. Its establishment was based on the government decision to meet the needs of the industry in providing professional manpower in the technical fields equip with solid academic knowledge and at the same time possessing high technical competency and skills.

The university's vision is to be the world's most creative and innovative technical university. The university has as its mission to produce professionals who are good in character, competent and outstanding through quality and world-class technical university education by application based teaching, learning and research in addition to smart partnership with industries, which is aligned with national aspiration. The vision and mission has been nicely aligned by the motto – Excellence through Competency.

There are five academic faculties in the universities, namely,

- Faculty of Electrical Engineering
- Faculty of Electronic Engineering and Computer Engineering,
- Faculty of Mechanical Engineering
- Faculty of Manufacturing Engineering an
- Faculty of Information Technology and Computer Science

Apart from that, three academic centers and an institute, namely,

- Academic Development Centre
- Postgraduate Studies Centre
- Teaching and Learning Center
- Entrepreneurships and Technology Management Institute

provide specific services and support to the academic faculties with the institute offering specialized postgraduate degree programs.

Presently, the university has a total enrolment of over 5000 students and 1000 academic and non-academic staff. KUTKM's projection for the year 2010 is for student's enrolment of 15,000 with significant proportion of postgraduate students' population. Currently, KUTKM operates from its Industry Campus in Ayer Keroh and the Durian Tunggal Permanent Campus.

KUTKM has clear objectives that are in line with the development of the industry and the aspirations of the country. Technical personnel required by the nation include among others engineers and information technologists. As such, KUTKM intends to produce engineers and information technologists who are confident and capable of implementing what they have learned. For this reason, KUTKM is committed towards producing graduates who have:

- a. scientific and professional strength in the field of expertise;
- b. strength in applying and practicing the knowledge that they have learned;
and
- c. personal competencies to become continuous learners to endure and to thrive in any circumstances.

In this university, students are exposed to learning processes that involve identifying problems, analyzing the problems, synthesizing the relevant ideas and using contemporary scientific theory to recommend appropriate solutions. This is done not only in the lecture halls but also outside the campus where students are exposed to

industry problems while undergoing industry training. All observations and solutions implemented are to be documented in the form of a technical report and students are also taught to communicate their views in a series of seminars held inside and outside KUTKM.

The professional competencies are seen as comprising of knowledge or cognitive competence, functional competence, personal or behavioral competence and values or ethical competence. The ability to work and to solve problems is developed within the framework of professionalism that emphasizes the use of theory to design, analyses and conclude on the nature of a problem and offer acceptable solutions.

Student acquires knowledge and skills through the application and practice oriented teaching and learning strategies. The major features of the practice and application oriented teaching and learning approach at KUTKM include:

- 
- Scientific strength;
 - Competencies;
 - Multi-skills;
 - Research and development;
 - Ethics, morality and humanitarian values;
 - Global industry perspectives; and
 - Industry leadership.

The fundamental and advanced scientific knowledge in the chosen field can be applied and practiced in research activities and projects. The effectiveness of the activities can be assured through the ability to translate theory into practice and application; this is what is meant to be competencies. After successfully researching on and developing particular product or thesis, the knowledge is disseminated and expanded through the use of various skills. This can start with the ability to manage the project itself, to explain its importance to related parties and to satisfy the financial and market requirements of the project.

SENARAI MAKMAL FAKULTI KEJURUTERAAN ELEKTRONIK & KEJURUTERAAN KOMPUTER

Terdapat 17 buah makmal di FKEKK. Senarai makmal-makmal adalah seperti dalam Jadual 2. Setiap makmal dapat menempatkan sekurang-kurangnya 60 orang pelajar dalam satu masa.

Bil	Nama Makmal	Jabatan
1	Makmal Automasi Industri	Kejuruteraan Elektronik Industri
2	Makmal Elektronik Industri 1	
3	Makmal Elektronik Industri 2	
4	Makmal Elektronik Asas 1	
5	Makmal Elektronik Asas 2	
6	Makmal Penyelenggaraan 1	
7	Makmal Kejuruteraan Komputer	Kejuruteraan Komputer
8	Makmal ECAD/DSP	
9	Makmal Digit 1	
10	Makmal Digit 2	
11	Makmal Mikropemproses	
12	Makmal Mikroelektronik	
13	Makmal PSM dan Fabrikasi	Kejuruteraan Telekomunikasi
14	Makmal Elektronik Perhubungan	
15	Makmal Pasca siswazah	
16	Makmal Perhubungan Asas	
17	Makmal Gelombang Mikro	

FAKULTI KEJURUTERAAN ELEKTRIK

SENARAI MAKMAL FAKULTI KEJURUTERAAN MEKANIKAL

Jadual 1: Senarai Makmal di FKM 2001-2005

Bil	Nama Makmal	Jabatan
1	Makmal Termodinamik	Jabatan Termo & Bendalir
2	Makmal Pembakaran	
3	Makmal Mekanik Bendalir	
4	Makmal Hidraulik & Pneumatik	
5	Makmal Kaedah Ujikaji	
6	Makmal Statik	Jabatan Struktur & Bahan
7	Makmal Dinamik	
8	Makmal Mekanik Mesin	
9	Makmal Mekanik Struktur & Bahan 1	
10	Makmal Mekanik Struktur & Bahan 2	
11	Makmal Sains & Teknologi Bahan	
12	Makmal Kawalan & Instrumentasi	
13	Makmal Ujian Tanpa Musnah	Jabatan Reka-bentuk & Inovasi
14	Studio Grafik 1	
15	Studio Grafik 2	
16	Studio Grafik Komputer 1	
17	Studio Grafik Komputer 2	
18	Studio Grafik Komputer 3	
19	Studio Kejuruteraan Berbantu Komputer	
20	Woksyop Mekanikal 1	
21	Woksyop Mekanikal 2	
22	Makmal Asas Automotif	

Jadual 2: Senarai Pembangunan Makmal 2006-2010

Bil	Nama Makmal	Jabatan
1	Makmal Analisis Tegasan 06	Jabatan Struktur & Bahan
2	Woksyop Pertukangan June, 06	
3	Makmal Prototaip & Inovasi June, 06	Jabatan Reka-bentuk & Inovasi
4	Studio Simulasi Maya 07	
5	Makmal Komputer FKM 06	
6	Makmal Servis & Penyelenggaraan Automotif 06	Jabatan Automotif
7	Makmal Kebisingan, Getaran & Ketidakselesaan 06	
8	Makmal Chasis & Struktur 06	
9	Makmal Ujian Enjin 06	
10	Makmal Autotronik 06	
11	Makmal Rekabentuk & Ujian Automotif 06	
12	Makmal Haba, Pengudaraan & Penyaman Udara 06	Jabatan Termo & Bendalir
13	Makmal Penukaran Tenaga 06	
14	Makmal Pemindahan Haba 06
