

# UTeM RECEIVES QS WORLD UNIVERSITY RANKINGS: SUSTAINABILITY 2024 RECOGNITION

Universiti Teknikal Malaysia Melaka

19/12/2023 05:11 PM

MELAKA, Dec 19 (Bernama) -- Universiti Teknikal Malaysia Melaka (UTeM) was rated for the first time in the QS World University Rankings: Sustainability 2024, being placed in the 1,001-1,050 rankings.

UTeM vice-chancellor Prof Datuk Dr Massila Kamalrudin said this was an honour for the university for its continuous commitment to sustainable practices that are directly linked to the world's 17 Sustainable Development Goals (SDGs).

She said it is also a globally recognised rating that assesses the university's commitment to environmental, social and governance (ESG) principles.

"UTeM's participation in this prestigious list simultaneously raises the university's profile internationally and demonstrates our commitment to having a direct impact on the world.

"This achievement also proves that there is a chain of success for every sustainable effort that UTeM as a whole undertakes through environmentally friendly practices on campus and community engagement," she said in a statement today.

Massila said the programme implemented by the university not only helps to make the campus greener but also promotes a sense of responsibility and awareness among students and staff.

She said the position also adds value to UTeM as an institution of technical excellence that continues to be a reference at the international level.

"Our continuous efforts towards complete sustainability are not only based on assessments but on a pure endeavour to ensure that this legacy can be passed on to the next generation and benefit the world," she said.
